

At the Jena University Hospital (JUH), Clinic of Neuropediatrics, application are invited for a

Professorship for Neuropediatrics (W3)

The Clinic of Neuropediatrics belongs to the Department of Paediatrics. The person to be appointed will represent the subject in research, teaching and patient care. It is expected that he/she strengthen at least one research focus of the Medical Faculty.

Requirements include postdoctoral thesis (Habilitation) or equivalent scientific qualification, board certification of Paediatrics (focus Neurosurgery), teaching skills as well as the willingness to contribute to the medical education. The candidate should have an outstanding track record in publications and extramurally funded research.

We are looking for a person with strong scientific leadership qualities and administrative skills. Furthermore, sensitivity and openness to economic matters and participation in the development process of JUH are expected.

In accordance with the decision of the German Ministers of Cultural Affairs (Kultusministerkonferenz) of 19.11.1999, the responsibilities regarding clinical care will be regulated by a separate contract establishing a performance-based pay with constant and variable components.

The JUH and Friedrich Schiller University Jena are committed to increasing the number of women in research and teaching. Therefore, JUH and the University actively encourage qualified female scientists to apply. In case of equal qualifications, applicants who have a disability will be favoured over the others.

Please submit complete application documents (CV, list of publications, list of lectures and courses taught, copies of certificates and degrees, list of third-party funding) online at <https://berufungsportal.uniklinikum-jena.de> by 18.09.2019, addressed to the Vice Dean for Research of the Faculty of Medicine, Prof. Dr. Andreas Hochhaus. Please contact berufungen@med.uni-jena.de with any questions.
