

At the Jena University Hospital (JUH), Clinic of Internal Medicine IV – Gastroenterology, Hepatology and Infectiology (Director Prof. Dr. Andreas Stallmach), applications are invited for a

Professorship for Hepatology (salary scale W2)

The successful candidate (m/f/d) should represent the field in research, teaching and medical services. An integration in the research foci of the Medical Faculty will be expected.

JUH is seeking an internationally visible expert in pathophysiology and pathobiochemistry of acute and chronic liver failure. The appointee should strengthen the Liver Transplant Center and Infectiology at the JUH. In addition, experiences in the conduct of clinical studies are explicitly expected.

Requirements include university degree in medicine, doctoral thesis, postdoctoral thesis (Habilitation) or equivalent scientific qualification, board certification of Internal Medicine and Gastroenterology, teaching skills and leadership competence. The candidate should have an outstanding track record in publications and extramurally funded research.

The JUH and Friedrich Schiller University Jena are committed to increasing the number of women in research and teaching. Therefore, JUH and the University actively encourage qualified female scientists to apply. In case of equal qualifications, applicants who have a disability will be favoured over the others.

Please submit complete application documents (CV, list of publications, list of lectures and courses taught, list of operations, copies of certificates and degrees, list of third-party funding) online at <https://berufungsportal.uniklinikum-jena.de> by **11.01.2020**, addressed to the Vice Dean for Research of the Faculty of Medicine, Prof. Dr. Andreas Hochhaus. Please contact berufungen@med.uni-jena.de with any questions.
