

At the Jena University Hospital (JUH), Clinic for Child and Adolescent Psychiatry, Psychosomatics and Psychotherapy (Director Prof. Dr. Florian Daniel Zepf), applications are invited for a

Professorship for Biological Child and Adolescent Psychiatry (W2)

The successful candidate (m/f/d) should represent the field in research and teaching. JUH is seeking an expert in neuroimmunology, neurochemistry, neuropharmacology or neurotoxicology. In addition, he/she has to strengthen the research foci of the Medical Faculty.

Requirements include university degree in a life science, doctoral thesis, postdoctoral thesis (Habilitation) or equivalent scientific qualification, and teaching skills. The candidate should have an outstanding track record in publications and extramurally funded research. The JUH and Friedrich Schiller University Jena are committed to increasing the number of women in research and teaching. Therefore, JUH and the University actively encourage qualified female scientists to apply. In case of equal qualifications, applicants who have a disability will be favoured over the others.

Please submit complete application documents (CV, list of publications, list of lectures and courses taught, copies of certificates and degrees, list of third-party funding) online at <https://berufungsportal.uniklinikum-jena.de> by 11.01.2020, addressed to the Vice Dean for Research of the Faculty of Medicine, Prof. Dr. Andreas Hochhaus. Please contact berufungen@med.uni-jena.de with any questions.
