

At the Jena University Hospital (JUH), Clinic for Gynaecology and Reproductive Medicine (Director Prof. Dr. Ingo B. Runnebaum), applications are invited for a

### **Professorship for Gynaecological Oncology (W2)**

The successful candidate (m/f/d) should represent this field in research, teaching and medical services. The appointee should strengthen the gynaecological and oncological priorities of the clinic including the nationally and internationally certified cancer centers. JUH is seeking an expert in the fields of innovative surgical treatment procedures as well as clinical and translational studies. Moreover the appointee should strengthen the cross-sectional field 'Oncology' and the research foci of the Medical Faculty and support the application for recognition as Comprehensive Cancer Centre.

Requirements include university degree in medicine, doctoral thesis, postdoctoral thesis (Habilitation) or equivalent scientific qualification, board certification of Gynaecology and Obstetrics and specialization in Gynaecological Oncology as well as teaching skills. The candidate should have an outstanding track record in publications and extramurally funded research.

The JUH and Friedrich Schiller University Jena are committed to increasing the number of women in research and teaching. Therefore, JUH and the University actively encourage qualified female scientists to apply. In case of equal qualifications, applicants who have a disability will be favoured over the others.

Please submit complete application documents (CV, list of publications, list of lectures and courses taught, list of operations, copies of certificates and degrees, list of third-party funding) online at <https://berufungsportal.uniklinikum-jena.de> by **08.05.2020**, addressed to the Representative of the Dean of the Faculty of Medicine, Prof. Dr. Orlando Guntinas-Lichius. Please contact [berufungen@med.uni-jena.de](mailto:berufungen@med.uni-jena.de) with any questions.
